

Do you know about the 2 marks that determine where you will exist after this life is over?

As this age is coming to a close, if we want to buy or sell, we will be required to take an identifying mark perhaps a set of numbers. It may be visible, or it may be invisible seen only by an ultraviolet light. It is the mark of the devil, the evil one, and will doom those who accept it to exist in hell eternally. (Satan's domain)

The second mark is one we cannot see as it is on our heart (the inner spirit). It is put there supernaturally by God Himself **when** we ask for this mark. It is an act beyond man's comprehension as the blood of Jesus is applied to our heart. This marks us to live with God in His kingdom throughout eternity. He says our names are written in heaven. (Luke 10:20).

Which do you chose? A mark that dooms you to hell or the mark that opens the gates of heaven?

Prayer

God, I ask for my heart to be marked with the blood of Jesus. I want the mark that ensures I can make my home with you forever. I turn from my self willed ways and want to follow you and have you direct my life. Thank you for marking me with your mark.
